

# Better packaging with Lemtapes® D&B

## application system for reinforcement and opening tapes

**Lemtapes D&B** (Dispenser & Beam) is a simple, durable, and easy to use production technology designed specifically for the corrugated board industry. D&B enables precise and secure positioning of tapes onto the surface or within the structure of corrugated board – without slowing down your unique production process.

This is accomplished with an easy, reliable rolling system that feeds tape between layers of corrugated cardboard during manufacturing. Up to 8 different tapes can be used at once, enabling effortless roll changes. D&B works with the entire range of Lemtapes tapes.

Lemtapes D&B is the perfect solution for strengthening corrugated packaging and making opening the boxes easy and frustration free (without weakening their structure with perforations).

### The result?

A safer, more productive manufacturing process that will save you time, material, and money. For your brand customers, stronger and more sustainable packaging that will help them shine.

Efficient,  
continuous  
production

Easy, reliable  
rolling system

Effortless  
roll changes

Fast and  
accurate tape  
positioning

Simple  
and secure  
fastening

## Your custom manufacturing solution

Understanding your unique production process and tailoring your D&B solution to your needs is our mission.

Our team of adhesive experts will be with you every step of the way, from installing and commissioning your new D&B to staff training. By the time training finishes, your staff will have the skills they need to move forward with confidence, and your business can begin reaping the benefits of smoother and more efficient production right away.

Regular service and spare parts are available by request, and Lemtapes will always be available for consultation, technical support and further training.

Lemtapes D&B is the most efficient and scalable way to bring Lemtapes **reinforcement** and **opening** tape into your production process. As your partner for better packaging, D&B is an extension of our commitment to help you find the best solutions possible for your production – and make them stick.
